

Bayvista Studios - Prices

All our photography options include your chosen images in high resolution on a computer disk, whether or not you purchase an album or wedding book from ourselves; This allows you copy, email and print as many copies of wedding photographs as you like! We still offer the wedding albums and the very popular wedding books, but there is no obligation to purchase from us. Should you prefer, you may choose to design your own album or wedding book from the photos now included on the computer disk.

We offer three options for photography, three for video and three combined options, which are based on the amount of time we attend the wedding. Each video option is captured with two cameras and includes three copies of the wedding on DVD. Each photography option is captured by two photographers and includes proofs of all the photographs taken plus your chosen photographs in high resolution on computer disk. An album or wedding book is an optional extra and the cost should be added to the base price below.
